

# SATELLITE

## SATELLITE TOWER

Stand high above the crowd with the all new portable Satellite Tower. Satellite is designed to deliver your message from all angles, making it easy to get noticed wherever it is used in lobbies, showrooms, tradeshow and more. Its strong and sturdy stance commands attention, while its elegant appearance invites admiration. Satellite's fundamental pillar shape also lends itself well as a key architectural component to large-size exhibits.

Satellite comes standard in a 3-section tower or a 4-section hi-rise to meet your specific communication needs. And with removable seamless graphic panels, it can be dressed to fit each occasion.

Satellites assemble in minutes and come down just as fast. The new and improved Satellites come with hubs, folding top/bottom scissors that are pre-installed for your utmost convenience. Expand the lightweight frames, lock them into place and connect the panels. When you're done, simply take down the graphics and fold the collapsible frames together.

### Dimensions

	Round	Square	Triangle (D 19")
3 Sections	W 17.3" H 87.4" 10 lbs	W 16.2" H 87.4" 12.3 lbs	W 20.3" H 87.4" 9.2 lbs
4 Sections	W 17.3" H 116.3" 13.3 lbs	W 16.2" H 116.3" 16.3 lbs	W 20.3" H 116.3" 12.2 lbs
