Original 8 Rectangular Table

The o8+ Rec. Table is the perfect compact desk for trade shows, mall displays or demonstration purposes. Compact and sets up in seconds.

Made from three Original 8 frames, the promo counter consists of a front panel (70 x 100 cm), 2 side panels (42 x 100 cm), a powder coated aluminum rectangular counter top and inside shelf.

Changing graphic panels is both quick and easy. Simply press the patented ball bearing release mechanism and slide the rail off. Now you can change your promotional message for any event.

With an inside shelf, you now have added space for storage of your promotional materials or product samples. The optional locking back door offers greater security.

When you're not using this as a demonstration or work counter, this versatile unit can double as a table top display. Fits on any 6' or 8' table.

Case options include a soft sided Nylon bag or optional hard shell portfolio case on wheels.

Optional header panel also available.
