# Big things come in small packages.

The Maxibit table top series is ideal for events where space is at a premium, but a professional presence is desired. Each system provides an attractive backdrop and will support any of our three panels - Front Runner™ fabric, Designer Finish and Digital Graphic. As well, each system is fully modular and can be expanded into a full-size, floor standing display as your future needs change.

The Maxibit table top series includes three unique systems - the Network table top, the Original 8 table top and the Demo table top.

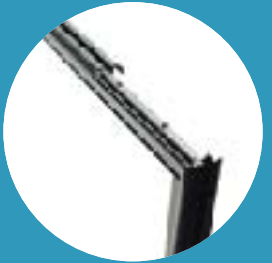

**Network table top - the leader in pop up table top systems.** The Network table top gives you a seamless, smoothly curved backdrop for presentations at tradeshow, conferences, exhibitions and more. Constructed from lightweight, anodized aircraft aluminum, the Network system uses a modular scissor and hub design that allows the display to be expanded, reduced or reconfigured in the field. Set up takes just minutes. The entire system, including magnetic infills, panels and detachable graphics, fits neatly into an over-the-shoulder nylon carrying case.

**Original 8 table top - a modular and durable folding-frame system.** Still the original and world's most recognized folding-frame display, the Original 8 gives you high-speed setup and show-stopping power. The Original 8 features twin channels that hold front and back panels giving you double the exposure. Its versatile modular design also features our patented stainless steel 360 degree blade hinges that make set up virtually effortless. Simply unpack and unfold...voila! A table top in seconds. And because the system is so sturdy, it can be converted into a handy table with our optional counter top and inside shelf. Ingenious!

**Demo table top - when cost is the biggest factor.** Demo gives you a functional and professional showcase at a very affordable price. It typically consists of three frames, with the centre frame being slightly taller. This additional display space is used for adding a detachable header graphic such as a corporate logo or slogan. The Demo table top also features our patented stainless steel 360 degree blade hinges for easy set up.
